Dear Mr. Hood:

The Associated Public Safety Communications Officers Inc. (APCO) is a non profit, national organization of public safety communications officers. This body has been selected, by the Federal Communications Commission, to coordinate radio frequency distribution in the public safety spectrum.

The West Virginia Chapter of APCO is sponsoring a public meeting to be held on October 28, 1992, for the purpose of dealing with an issue vital to the availability of radio frequencies which are to be assigned to local, state and federal agencies operating radio communications systems within West Virginia.

The Federal Communications Commission has mandated that a plan for the assignment of certain frequencies be drafted, approved by public safety agencies who are eligible for the use of those frequencies, and submitted to them for approval and acceptance. The purpose of the plan is to reserve frequencies to be used by those agencies within West Virginia. The absence of a plan for West Virginia, which has been designated as Region 44, will result in there being no frequencies specifically reserved for use in our state. This plan must be filed with the Commission before the end of January, 1993.

By mandate of the Federal Communications Commission a public safety frequency use plan for the 821-824/866-869 MHz. Special Emergency frequencies to be used by West Virginia public safety agencies must be filed with the FCC by February 1, 1993.

FCC approval of a regional plan will reserve those frequencies as contained in the plan for use in West Virginia, which has been designated as Region 44 by the FCC.

Failure to submit a plan for approval by the deadline will result in NO FREQUENCIES BEING RESERVED for West Virginia eligibles.

While a public notice of these proceedings has been published (a copy of which is attached) you are by this letter, urged to have a representative of your agency present.

Please disseminate this information to those agencies or individuals covered by your service.

PUBLIC NOTICE

Having been duly certified to the Federal Communications Commission (FCC) by the Associated Public Safety Communications Officers, Inc. (APCO) to convene an initial public meeting of interested parties eligible for radio licensing in the FCC Part 90, Public-Safety and Special Emergency Radio Services, and to establish a Regional Planning Committee for the area encompassing the fifty-five counties of the State of West Virginia, hereinafter described as Region 44, we hereby give Public Notice that such an initial meeting shall be held on October 28, 1992 at 10:00 am at the Days Inn, Flatwoods (Sutton), WV.

The responsibility of this committee will be to develop and submit for FCC approval a plan for use of the recently allocated 800 MHz. frequency spectrum in compliance with the FCC Report and Order in General Docket No. 87-112 released on December 18, 1987.

Copies of the Report and Order are available from the FCC's duplication contractor, International Transcription Services, Inc., Suite 140, 2100 M Street, NW, Washington, D. C. 20037, Phone (202) 857-3800.

Additional meeting information may be obtained at the telephone numbers given below.
